

Consolidated Report
(RoHS)

Applicant:	
Address:	

Sample Description:	Travel adapter
Manufacturer:	Same as applicant
Model No.:	YM-128
Trademark:	N/A
Test Period:	From 2017-04-06 to 2017-05-04

Tests conducted:
As requested by the applicant, refer to attached page(s) for details

CONCLUSION: Based on the submitted information, the submitted sample and test data of below listed test report(s) are in compliance with the directive 2011/65/EU

Signed for and on behalf of
Victronic Technology (Dongguan) Corporation

Leo Tong, Project Manager, Laboratory

This report is made base on the Conditions of Testing as posted at the date of issuance of this report at Victronic Techonlogy (Dongguan) Corporation. Any copying or replication of this report to or for any other person or entity, or use of our name or trademark, is permitted only with our prior written permission. This report sets forth our findings solely with respect to the test samples identified herein. The results set forth in this report are not indicative or representative of the quality or characteristics of the lot from which a test sample was taken or any similar or identical product unless specifically and expressly noted. Our report includes all of the tests requested by you and the results there of based upon the information that you provided to us.

Consolidated Report (RoHS)

Note / Key:

N.D. = Not detected

mg/kg = milligram(s) per kilogram = ppm = part(s) per million

Result(s) of Cr VI for metallic material(s) was (were) expressed in term of positive and negative. Negative means the absence of Cr VI on the tested areas and the result(s) was (were) regarded as in compliance with European Council Directive 2001/65/EU, Article 4(1). While, positive means the presence of Cr VI on tested areas and the result(s) was (were) regarded as in conflict with European Council Directive 2001/65/EU, Article 4(1).

^According to the declaration from the client, Lead (Pb) is exempted by EU RoHS directive 2011/65/EU base on ANNEX III 7(c)-I: Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.

Disclaimers:

- The test data obtained and the test reports issued by laboratories other than VICTRONIC are provided by the applicant to VICTRONIC for data consolidation purposes
- This is a summary combining the test data and the test reports provided by the applicant to VICTRONIC and hence this combined test data report shall in no event be treated or deemed to be a formal test report.
- VICTRONIC will not verify and be responsible for the accuracy, completeness, adequacy and/or genuineness of all or any of the test data and the test reports submitted by the applicant to VICTRONIC.
- In no event shall VICTRONIC or any of VICTRONIC officers be or deemed to be liable for any loss or damages, whether direct, in direct or consequential loss or damages(including without limitation damages for loss of profits and business interruption)arising out of or in connection with the use, quote, reliance or whatsoever of any information provided in this combined test data report, or any claim attributable to errors, omissions or other inaccuracies in this combined test data report or the interpretations thereof.

In case there is any conflict between the disclaimers stated herein and the applicable terms and conditions of VICTRONIC, the disclaimers shall prevail.
